

HAFER GOES TO COURT TO GET HIS JOB BACK

A former Gettysburg man, Sebastian R. Hafer, now a resident of Camp Hill, petitioned Commonwealth court Tuesday to make the Scranton administration give him back his Civil Service job as previously ordered by the Civil Service Commission.

Hafer, of 365 N. 24th St., Camp Hill, a management analyst for the Office of Administration, but on the payroll of the Pennsylvania Liquor Control Board, brought the complaint.

John Ingram, secretary of administration; Martin H. Brackbill, budget secretary, also a former Gettysburg resident, and A. D. Cohn, Dean Fisher and Daniel B. Swaney, members of the Liquor Board, were named defendants.

REINSTATEMENT ORDERED

As recently as Monday the state Justice Department announced it had informed Gov. William W. Scranton and Ingram that they may ignore Civil Service Commission orders in cases stemming from budgetary dismissals.

However, in his complaint, Hafer states that on July 1, after the Civil Service Commission had ordered him reinstated, he demanded to be returned to duty. Ingram and Brackbill refuse to do so, he says on grounds that the opinion of the Justice Department was that the commission had no power to make such an order.

The commission had ruled that Hafer's dismissal was improper because the Liquor Board failed to show the dismissal was due to a lack of funds or of work. The commission ordered Hafer reinstated on July 1.

"UNLAWFUL" ACTION

Hafer said in his court petition that the Liquor Board "promptly prepared necessary papers," but that they have not been processed by the budget secretary or the secretary of administration.

According to the Justice Department ruling announced on Monday, both offices were advised they didn't have to adhere to the commission's order because neither was a party to the proceeding, neither comes under control of the commission.

Hafer, who says his job is classified under what is commonly termed "Legislative Civil Service," contends that he has "unlawfully been prevented from resuming his duties" and that it is the duty of the defendants to restore his position.

He asks the court to order the Liquor Board to again draw up the necessary papers to restore him to his post, and to order the secretary of administration to instruct the budget secretary to approve the papers "in order to carry out and obey the lawful order of the Civil Service Commission."

2ND APPEAL BY SAFECRACKER TURNED DOWN

The United States Court of Appeals for the Third Circuit has turned down an appeal of G. Roy Weller Sr., Hagerstown, for a writ of habeas corpus, according to a copy of the opinion of the Appeals Court received by District Attorney Daniel E. Teeter today.

Weller was seeking release from the State Penitentiary at Huntingdon where he is serving out a two-and-a-half to five-year sentence for burglary of the then Gettysburg Furniture Company office on York St. June 25-26, 1958.

On April 11, 1959, Weller was arrested in Bedford while attempting to enter a building there. A gear puller was found in his possession which led police to believe he might have been the man who opened the safe with a similar device at the furniture factory here. Markings on the door of the safe here were identical to those made by the puller in Weller's possession.

LOOT WAS FOUND

Police then searched Weller's home in Hagerstown for a \$500 camera and \$25 light meter stolen from the furniture factory here. Police had the serial numbers for the camera and light meter. They found the articles in Weller's home.

Weller in August, 1961, asked the U. S. District Court for the Middle District of Pennsylvania to free him because his house had been searched without a search warrant. That appeal for a habeas corpus was thrown out when the search warrant was displayed and police and others testified they had had it at the time of the search and had read it to Weller's wife.

In the current case Weller held that the search warrant was improper because it listed the name of "Mrs. Carrie Weller" while Weller's wife's name is Pauline.

The court in dismissing Weller's appeal held that although the warrant did refer to a "Mrs. Carrie Weller," when Mrs. Weller's name is Pauline, it was proper because it also referred to her as Mrs. Garnett Roy Weller, listed the address of the house, contained a complete description of the house, and which were found in the house.

\$3,000 DAMAGE IN 2 CRASHES HERE TUESDAY

Damage totaled \$3,000 in two auto accidents investigated by state police Tuesday.

Most of the damage occurred in a crash just south of the borough line on the Littlestown Rd. at 4:10 p.m. State police said Dewitt Hay, 55, of 703 Highland Ave., was driving an empty Gettysburg Tours bus when Allen E. Cecil, 16, Reisterstown, Md., driving in the opposite direction, permitted his car to drift across the center of the highway and it side-swiped the bus. Damage to the car was estimated at \$1,200 but none of its occupants were reported injured. Damage to the bus was \$800. The driver, who was alone in the bus at the time, was unhurt.

The other accident occurred at 6:05 o'clock Tuesday evening a half mile west of Biglerville on the Arendtsville Rd. State police said Charlotte J. Murtoff, 25, Gardners, was headed west behind a truck and several cars and attempted to pull off the opposite side of the road at a refreshment stand. As she did so, state police said, she failed to see a station wagon driven by Galen D. Burkholder, 42, Shippensburg, approaching, headed east, and the two vehicles collided, causing \$500 damage to each.

Charlotte Murtoff was removed to the Warner Hospital for treatment for a possible fractured wrist, but decided, according to police, after her arrival here to see her personal physician instead.

BEGIN PEACH HARVEST AS CHERRIES END

Nature is cooperating on a better-than-usual schedule this year with local fruitgrowers who today are ending the annual cherry harvest and starting the peach season. The peach harvest usually begins a week to 10 days after cherry picking ends.

The local sour cherry harvest will be completed in most orchards in the county today and Thursday and processors expect to end processing operations within the next few days. Processors report the crop yield was better than early predictions, aided by rains of the last two weeks.

The first substantial quantities of Adams County's fresh peaches today headed for nearby metropolitan markets as growers started concentrated picking operations this morning.

REACH CITY MARKETS

Truckloads of Jerseyland, Sun Haven and Early Red Free varieties will reach city markets tonight. Local growers will begin full-scale harvest within the next 10 days.

The local peach crop is reported to be better than early predictions indicated with Adams County in possession of a larger yield than many other areas. While not in full crop, local orchards suffered less freeze damage over the winter than most other peach-producing sectors of the state with minor hail damage in a few orchards. The state crop reporting service indicates practically no peaches west and north of the county.

Growers report that peaches have sized appreciably with the rainfall since early June and have required little or no irrigation. Pumping systems were used earlier in May and will be operated on late varieties of peaches and apples unless rain is forthcoming within the next 10 days, growers report.

CLARK SCORES RACE GHETTO AS SHAMEFUL

WASHINGTON (AP)—Sen. Joseph S. Clark, D-Pa., described job discrimination today as a cancer which has helped create racial ghettos often surrounded by crime, disease, delinquency and despair.

In a statement for the opening of the Senate Labor Subcommittee hearings on fair employment practices legislation, Clark, the subcommittee chairman, called for enactment of an effective ban against discrimination in employment.

Any action to end discrimination in public accommodations, education and housing will be hollow, Clark said, if Negroes are denied the chance for a decent job to improve their living standards.

SHAMEFUL ROLE

"To be always at the end of the hiring line, always the first to get the pink slip; always the sweeper or washroom attendant and never the machine operator or sales manager — this is the shameful role in which we have cast the 10 per cent of our population whose skin is not white," Clark stated.

Because of job bias, Clark added, there is within the Negro community a depression as grinding and as hopeless as the economic depression of the 1930s.

Guns Man Down In Driveway; Tries Suicide

ELMHURST, N.Y. (AP)—Lawrence B. White, 48, was shot and killed today as he alighted from an automobile at his home in suburban Pine City. His alleged assailant then turned the gun on himself and was wounded critically, sheriff's deputies said.

Deputies said the injured man was Harold Bolt, 60, of nearby Millerton, Pa. He was in critical condition at Arnot-Ogden Hospital here with a chest wound.

White had just arrived at his home with his wife, Mary, and Bolt's wife, Lois, when Bolt drove up in a 35-caliber rifle, deputies said.

The motive for the shooting was not determined immediately.

Neither woman was injured. The two families live about five miles apart. Millerton is just south of the New York State-Pennsylvania line.

White's body was found beside his car. He had been shot once through the left shoulder.

Bolt was found unconscious on the ground beside his car, deputies said. The rifle was beside him, they added.

No charges were filed immediately.

SURPRISE TRIO AS THEY STAGE OFFICE HOLDUP

PHILADELPHIA (AP)—Police, responding to a silent alarm Tuesday, surprised three men holding up a Yeoman real estate and savings office.

The police said one of the men was Raymond Elwood Thompson, 30, of Philadelphia, sought since April 5 in the \$14,000 robbery of an Industrial Valley Bank and Trust Co. branch. Two other men were captured in that holdup.

The police said they also caught Charles Allen, 31, and Frank Del Piano, 29, both of Philadelphia, stuffing money in their pockets at the Benfried Savings and Loan Association Tuesday. The police said they have detainees against Allen and Del Piano for the \$3,300 robbery of the Burton C. Savings and Loan Association June 28.

Besides policemen, Lewis Smith, 33, operator of the Delaware Valley Collection Agency next door, participated in the capture.

Using a borrowed gun Smith prevented the flight of one of the men, said the police.

Thompson, Allen and Del Piano were held without bail for the Delaware County grand jury.

TO CONTINUE BIBLE READING

HARRISBURG (AP)—Bible reading on a permissive basis will continue in Susquehanna Township schools this year, despite a U.S. Supreme Court ruling banning it as a required procedure in classrooms.

The township's seven-member school board voted Monday night to permit the practice to continue in light of the absence of any directive or law ordering schools to stop.

"This county will fall just as fast as it has grown if this type of thinking persists," declared Richard D. Wampler, Susquehanna school board president.

The board, which opens its own meetings with prayer, said it felt it was acting on behalf of the parents of its students in making the decision.

Last month the U.S. Supreme Court upheld a U.S. District Court ruling in Philadelphia striking down a Pennsylvania law requiring that public schools open each year with Bible reading. The Supreme Court also outlawed recitation of the Lord's Prayer as a required classroom exercise.

Meredith, 30, the Negro who pioneered integration at Ole Miss, meanwhile went to his classes today under the watchful eyes of federal marshals.

Operating expenses were \$43,178,445, or \$848,325 less than those of the comparable period, despite higher wage rates this year, the company said.

RIPPER BILL GOES TO HOUSE

HARRISBURG (AP)—Legislation empowering the governor to fire appointees to state boards and commissions without regard for statutory term of office heads for the House today after a rough ride in the Senate.

Senate Republicans turned back solid Democratic opposition Tuesday to pass the measure, 27-23, despite 45 minutes of bitter debate.

Minority Leader Charles R. Welner of Philadelphia led the opposition, accusing the bill's sponsors of not knowing what was in the measure and claiming the proposal was "needless."

Republicans conceded the bill was offered because Democrats were holding back on confirmation of many of Gov. Scranton's appointments.

Under present law the governor cannot dismiss any appointees without cause.

BILL OUTLAW CANCER QUACK

HARRISBURG (AP)—The House approved unanimously today an administration bill designed to prohibit unauthorized treatment of cancer.

The measure was aimed at so-called "quacks" who have been treating cancer patients over the years without medical sanction. The bill would permit only licensed physicians or dentists to treat or diagnose cancer.

It carries a penalty of up to \$5,000 or one year imprisonment or both for violations. Repeat violators would be subject to a maximum fine of \$10,000 and/or imprisonment up to five years.

The vote, 186-0, sent the bill to the Senate for further action.

Stock Gains Are "Unimpressive"

NEW YORK (AP)—The stock market jogged ahead slightly in dull trading early this afternoon after 10 straight daily declines.

Brokers called the advance "unimpressive" and ascribed it to buying by traders who hoped to pick up some short-term profits.

Motors, oils, steels, chemicals, utilities, aerospace issues, and a number of the volatile issues in the office equipment, photographic, and electronic fields were ahead.

As the possibility of a nationwide railroad strike once again drew closer, some Wall Streeters seemed to be standing pat.

JUDGE HANDS DOWN PENALTY TO GAMBLER

PHILADELPHIA (AP) — Matthew F. Whitaker, convicted Pottsville gambler, was sentenced to nine months in prison and fined \$1,000 today by Judge John W. Lord in U.S. District Court. He also was placed on three years probation when his sentence is completed.

Whitaker was convicted last March of using telephones for gambling activities, a violation of a new section of the federal anti-racketeering laws.

Attorney Robert C. Duffy told Judge Lord that Whitaker was a "good family man" who assisted many young men in the Pottsville area in attending college.

JUDGE REPLIES

The judge replied that Whitaker has been arrested a number of times for gambling and assault since 1939, but never was convicted.

"Apparently Mr. Whitaker has been immune from local prosecution," the judge said. "He has been convicted and rightly so of violating the laws of the United States and has operated a successful gambling enterprise."

Judge Lord said gamblers have been known to "reach into the colleges and taint the lives of young men."

Whitaker was given two weeks in which to get his affairs in order before beginning his prison sentence.

CENTENNIAL

(Continued From Page 1)

by the field hospital in addition to those seeking aid directly at the hospital. Surgical coverage was complicated by the illness of two staff members and necessitated handling of minor injuries by the medical man on duty.

Nurses, technicians, maintenance and clerical staff members were scheduled on full time coverage. Elective admissions for the week were cancelled as was elective surgery. The hospital handled 132 patients during the period through its emergency facilities, 42 of which were classified as centennial cases. There were also five centennial admissions as in inpatients and 15 regular admissions not centennial-connected.

Planning for the centennial coverage was carried out by Dr. Hall, Dr. Raymond M. Hale Jr., of the hospital staff and Walter B. Dillon. When emergency plans for the CAP field unit were threatened by lack of funds, Dr. Hall, Dillon and Col. Neumiller, Major Geiger and Major Cassel of the CAP worked out a substitute plan for the use of the volunteer unit.

NEIGHBORS HELP

Provisions were made with neighboring hospitals at York, Hanover, Chambersburg, Carlisle and Waynesboro for hospital and staff assistance should the need arise.

Hospital authorities felt that the heavy rain on parade day, July 2, lowered the temperatures and reduced the number of sufferers from heat exhaustion.

Reviewing the operation, hospital authorities declared that in a similar situation some changes were desirable: holding areas for the CAP should be located closer to the treatment tent, particularly when only one physician was on duty; clerical personnel from the hospital should be assigned to the field tent to facilitate record keeping, especially with regard to patients transferred to the hospital; more intravenous solution should be available at the field hospital for replacement of body fluids, particularly in heat exhaustion cases.

OTHER SUGGESTIONS

Other suggestions included a separate administrative tent apart from the treatment tent to minimize confusion and more adequate traffic control for passage of ambulances and personnel.

While provision was made to tie the field hospital to the Warner Hospital switchboard and communication with fire company ambulances was maintained by radio, there should have been contact with the army ambulances.

Food and meals of CAP personnel were provided through hospital dietary facilities and electric power for the tents was provided by a tap line direct from the hospital.

Advisor On Farm Topics

Named: Richard C. Lighter, Campdown, Bradford County, appointed by the Pennsylvania Department of Public Instruction as advisor of vocational agriculture for Gettysburg and Adams county, began his duties Tuesday at the office of County Superintendent Ira Y. Baker at the court house. He will supervise agricultural departments in the Ardenville Vocational high school and East Berlin, Biglerville and New Oxford high schools. Later he may teach a course in vocational agriculture in other high schools of the county where facilities are available and the district boards desire introduction of that work. The new agricultural advisor is a graduate of the University of Maryland. He received the degree of bachelor of science in agricultural education and later studied in the graduate school of Cornell university. From 1926 to 1929 he taught vocational agriculture and manual training and coached athletics in Carroll county, Maryland. Since 1929 he has taught vocational agriculture in the Wyalusing-Herrick Joint Vocational school at Campdown. Lighter is married and has three children.

Baldonnell Airport, Dublin, Ireland, July 18 (AP): An antiquated, single-motored American airplane fluttered down here this afternoon after its owner, 31-year-old Douglas Corrigan, had pushed it across the Atlantic in a surprise unsanctioned flight from New York. It taxied across the field and wheeled to a stop. Flabbergasted Irish airport officials rushing to the machine saw a grinning pilot climb out. "I'm Douglas Corrigan," he said, "just got in from New York. It took me 28 hours and 13 minutes." The plane came down from a rain-streaked sky at 2:30 p.m., 28 hours 13 minutes after Corrigan had taken off from Floyd Bennett airport on a flight "to California" — and with no permit for a trans-Atlantic crossing. "By the way, Where am I?" the flier asked the gathering Irish crowd. "Corrigan, eh?" asked one Dubliner. "Have a nice crossing?" "Not bad," was Corrigan's reply. "There was not much to it. I flew over the clouds all the time and never saw the ocean until I reached the coast. The weather was good." Then, quite belatedly, attendants thought of landing papers and asked Corrigan for them. "Forget it," he said yawning. "I thought it was California all the time." Corrigan had no radio and only the barest navigational instruments. U. S. officials were frankly flabbergasted by the flight. Corrigan neither asked nor received a permit to fly to Europe. Regulations provide for penalties ranging from a fine to revocation of a pilot's license in such cases.

The Biglerville Boy Scouts returned home Thursday after spending 10 days camping at Deardorff's grove, near McKnightstown. Included in the group were: Robert Sternat, Thomas Yost, Leo Kleinfelter, Dean Carey, Donald Nary, Teddy Slaybaugh, Fred Baker, Kenneth Lawver, John Lawver, Clyde Heller, William Hollabaugh, Wilmer Diehl, Robert Bringham, William Jester, Richard Rice, Harold Peckman, Clair Settle, John Stallsmith, Junior Sando, Owen Unger, William Warren, David Pitzer and Junior Walter. The boys were accompanied by their Scoutmaster, the Rev. Henry W. Sternat; Charles L. Yost, a member of the Scout committee and Samuel Ehlman.

Today's Talk

THAT DIVINE DISCONTENT

One of the priceless inheritances of the human race is its divine discontent. It has furnished the world with its greatest discoveries, its finest literature and its greatest progress.

Thomas Edison was discontented with his job as a newsboy and later as telegraph operator. And so he studied out new ways, new means. And when he had perfected one invention of use, he turned to the task of inventing another, as well as improving upon every former invention. Thus it was that the world advanced through that divine discontent that was born within him, and thus he became one honored around the world for all that he did.

With the growth of population and the concentration of people in cities, something had to be done about walking up long flights of stairs — so it was that the elevator and the escalator revolutionized all building projects. Study the lives of any successful and useful men or women and you will find that it was their discontent with themselves and their environment, or their particular jobs, that urged them into something bigger and better.

It is a healthy sign when a person gets disgusted with himself and is unsatisfactory to himself. Growing pains are in evidence at such a time.

It's discontent that gets people out of self-made ruts and which drives them to a radical change of front, which is always commendable. No one ever grows in mind or heart-expression who is contented. The contented person stands still. He is worse off than the mere bystander, for the bystander usually does a lot of thinking as he watches the procession pass by.

Don't let it discourage you if you find yourself in a maze of discontent. Something vital and interesting is stirring within you. Something that may change the entire course of your life — and place you among the immortals. You will at least serve your time with credit, if you act upon such an urge.

Tomorrow's subject: "Interest-ness."

INFLUENCE

Can life be important? Since we see

That every individual on the earth Comes with the hopes of many into birth.

From that first cry he's never wholly free. Others have dreams of what he is to be.

Are moved by him to sorrow or to mirth, Share in his shame or glory in his worth.

And find in him their future destiny.

The influence of a single life goes out

Beyond the power of science to compute, 'Tis this which lifts man higher than the brute

And as he keeps the faith in times of doubt, Holds fast to truth and makes the nobler choice,

So do the hearts of all he nears rejoice.

JIM MALONEY

DEFEATS CUBS
ON 1-HITTER

By JOE MOOSHIL

Associated Press Sports Writer
CHICAGO (AP)—Maturity and ability are two of the assets needed to become a winning major league pitcher and Jim Maloney of the Cincinnati Reds has acquired both talents in one season.

The 23-year-old right-hander, who in three previous seasons in the majors could amass only 17 victories, rang up his 13th of the year Tuesday against the Chicago Cubs with a magnificent one-hit, 1-0 triumph.

Maloney, who has lost only three games this year in comparison to 20 in previous major league competition, considered his job against the Cubs the greatest of his career.

SINGLES IN FIRST

Ellis Burton's single through the left side of the infield in the first inning was the only hit off Maloney who finished strong and struck out 13.

Maloney is a product of Fresno, Calif., High School and played on the same prep team which had Dick Ellsworth of the Cubs as its star pitcher.

"I played shortstop on the team," says Maloney, "and was used as a third pitcher when we got into tournaments. Dick and Len Rube were the team's regular pitchers."

FACES REDS

Ellsworth, who has a 13-7 record and will face Cincinnati today, signed a bonus contract the day after he graduated in 1958. Maloney went on to college for a semester and finally signed a bonus contract with the Reds in April 1959.

He flourished until this season when he developed a sidearm fast ball and curve to go with his overhand fast ball and curve.

"I finally got those other pitches to a point where I could control them and went from a loser to a winner," said Maloney. "This has to be the best game I've ever pitched."

INDIANS TRIM

READING 4-3

By THE ASSOCIATED PRESS

Tony Attanasio couldn't bunt home the tying run for Charleston Tuesday night, so he went one better. He smashed a two-run triple instead and the Indians defeated the Reading Red Sox 4-3 to keep a tight grip on first place in the Class AA Eastern League.

The Indians were trailing 3-2 in the last of the ninth. With one out and Jack Hernandez on third and Vern Fuller on first, Attanasio tried to drop a squeeze bunt. He missed for a strike. Then he swung away and the ball sailed between outfielders Harry Kalbaugh and Bob Stotsky and Hernandez and Fuller came home.

Right-hander Tom Phoebus gave up just two hits—singles in the first and ninth inning—as the Elmira Pioneers defeated the Binghamton Triplets 2-0. The victory snapped the Pioneers' five-game losing streak.

The York White Roses defeated Springfield 5-2 to shuffle the standings. Springfield, which had been second, dropped out of the first division as a result. York and Elmira are in a virtual tie for second.

Tonight's games: Springfield at York; Binghamton at Elmira; Reading at Charleston (2).

POLICE ARREST 55 PICKETS ON BROOKLYN JOB

By RALEIGH ALLSBROOK
NEW YORK (AP)—Antidiscrimination pickets repeatedly blocked work trucks from entering a hospital construction site in Brooklyn Tuesday and 55 were carried away by police.

But the civil rights demonstration appeared to be a token effort when compared to the picketing which produced mass arrests Monday.

Their leaders, set to confer later with Mayor Robert F. Wagner, had not called for concerted civil disobedience Tuesday in the fight against alleged union bias against Negroes in the building industry.

DELAY TRUCKS

Nevertheless, some pickets sat, knelt or lay in the paths of heavy trucks and refused to move.

Other pickets resumed a demonstration at a public housing construction project in Manhattan, another scene of multiple arrests Monday, and began a protest at an apartment building site in Queens.

At the outset of the Queens demonstration, the 200 demonstrators stood passively in driveways and were shoved aside by police to allow construction vehicles to enter.

Two persons were arrested in Queens, including the demonstration leader, William Booth, a lawyer and chairman of the Jamaica branch of the National Association for the Advancement of Colored People.

MASS ARRESTS

Mass arrests were made Monday when some 1,000 demonstrators sat down or paraded in the path of construction trucks. Many refused to budge.

About 300 were hauled bodily into police vans, and 22 of them were arrested. The rest, mainly juveniles, were released later, along with those arrested.

Today's pickets, the majority of them Negroes, were following the tactics of Monday's demonstration. They had been told by Negro leaders at a rally Monday night that they were not being asked to engage in a civil disobedience today.

But the Rev. Gerald S. White, a Negro pastor, told newsmen that if the pickets wanted to stage sit-downs today, it was all right with the demonstration leaders.

German Spy Draws 14-Year Sentence

KARLSRUHE, Germany (AP)—The federal supreme court Tuesday sentenced former West German intelligence official Heinz Felke to 14 years imprisonment at hard labor after convicting him of having spied for the Soviet Union.

The panel of five judges found Felke, 45, guilty on all charges brought up against him by the federal prosecutor.

Felke had been head of the counterintelligence section of the federal intelligence service, often called the Gehlen organization because it is headed by former Gen. Reinhard Gehlen.

Hans Clemens, 59, one of Felke's two codefendants, received 10 years in prison at hard labor.

The third accused, Hans Tiebel, got three years imprisonment at hard labor.

GENEVA (AP)—The Soviet Union still wants Red China in the United Nations despite the Moscow-Peking split over Communist ideology.

Soviet delegate Anatoli Arkadiev told the annual meeting of the U.N. Economic and Social Council Monday: "A revision of the U.N. charter cannot be carried out without restoring the right of the People's Republic of China, which must occupy its legitimate seat in the Security Council."

LONDON (AP)—British Honduras, a Central American colony bordering Mexico and Guatemala, will get self rule on Jan. 1.

British and British Honduran leaders agreed on a new constitution Monday.

By GEORGE McARTHUR

CAIRO (AP)—President Gamal Abdel Nasser says Egypt, Iraq and Syria cannot unite as long as the Ba'ath Socialist party rules Syria.

Denouncing the Syrian regime as fascist, Nasser declared Monday night: "There cannot possibly be any alliance with fascism based on deception and treason. We want democratic unity, not the unity of a Ba'athist prison."

COOPERATION SEEN

Iraq also has a Ba'athist government, but Nasser apparently left the door open for cooperation with it. He and the Syrian Ba'athists have been at odds since the short-lived union of Egypt and Syria of 1958-61.

The three nations agreed in April to form a new United Arab Republic on Sept. 17 with Nasser as transitional president.

QUELL COUP

The Syrian regime last Thursday quelled a coup attempt by Nasser supporters and launched a roundup of pro-Nasser elements. At least 27 rebels have been executed.

Nasser spoke to about 200,000 Egyptians jammed into Cairo's Gumburriya Square on the eve of the 11th anniversary of the revolution that overthrew King Farouk.

Nasser said the agreement no longer is binding "so far as the (Syrian) Ba'athist fascist government is concerned." But he said he still considers it binding on the Syrian people. He added that his attack was directed at the party leadership, not at the "good elements who remain in the party."

ACCUSED PREMIER

He called Syrian Premier Salah Bitar immoral and Ba'ath party theoretician Michel Aflak a man "who keeps saying 'I mean, I mean, I mean'—and who means nothing." He accused Bitar of "attempting to kill conscience and honor."

Nasser said he still hoped for Arab unity "for the protection of the Arab nation and the liberation of Palestine."

"We have no plan to attack Israel," he continued, "but we do have one for preparation and for unifying the Arab world which will protect Arab nationalism and the nation against any attack."

Kennedy's Rail Proposal Could Result in Bringing Compulsory Arbitration

By JAMES MARLOW
Associated Press News Analyst
WASHINGTON (AP)—President Kennedy says his plan for settling the railroad dispute is intended to avoid compulsory arbitration. But the net effect in large measure could wind up being compulsory arbitration.

Nevertheless, an examination of the plan indicates it's a thought-out device for taking much of the steam out of the four-year long argument between the railroads and the unions.

Kennedy asked Congress Monday to pass a resolution giving the 11-man Interstate Commerce Commission authority to go over the whole dispute and give rulings which would stay in effect for two years after they were made.

TWO-YEAR LIMIT
The ICC's authority would last two years from the day Congress passed the resolution.

During that time—if the unions or railroads didn't like a ruling and wanted to strike or shut down—the ICC could get a federal court injunction forbidding such action.

Briefly this is the background before looking at what Kennedy proposed:

RAIL ARGUMENT
The railroads argue that, thanks to modern improvements, they could operate \$600 million a year cheaper if they weren't saddled by thousands of jobs they consider unnecessary.

For example: diesel engines have almost completely replaced steam locomotives. The railroads say that while firemen were needed on the steam locomotives, they are unnecessary on the diesels.

So they want to eliminate about 35,000 firemen's jobs, about 10,000 right away, the rest over the years through retirement or death or quitting. In addition, they want to eliminate about 30,000 other jobs over a period of time.

HAVE SUPPORT
A presidential commission and a presidential board went along with the idea of eliminating jobs. The Supreme Court upheld the right of the railroads to do the eliminating.

The unions not only refused to agree, they threatened a strike if the railroads started job-cutting. They refused to let some outsider—an arbitrator—give a ruling that would be binding on unions and railroads.

Congress, to prevent a strike, could compel the two sides to accept arbitration. This would be compulsory arbitration. That's a dirty word with American management and labor, and Congress doesn't like it, either.

WANT NO STRIKE
Still, Kennedy and Congress do not want a crippling strike. So Kennedy, to prevent it, came up with the device he suggested Monday. If Congress approves, there

can be no strike for at least two years.

But, while it is supposed to avoid compulsory arbitration, this is how it would work:

As soon as Congress approves the resolution, as it probably will in some form, the ICC would be empowered to act in the case. It would have this authority for two years. Its main task would revolve around manpower and jobs.

The two sides could file applications for rulings. Once the ICC gave a ruling, it would stay in effect two years.

This could happen: Right near the end of its two-year term the ICC might give a ruling which would have to stay in effect for two years afterward. This means the ruling would be in effect four years after Congress passed the resolution.

This seems far-fetched. Almost surely it won't happen but this will: As soon as the ICC is empowered to act, the railroads will dump all their job problems in the ICC's lap to get action fast.

TIME ELEMENT

The ICC is supposed to act within 120 days—or as soon thereafter as possible—after getting a request for a ruling.

If the ICC decided a number of firemen's jobs should be eliminated, then those jobs would be eliminated for two years. But right here it would seem from what Kennedy said, the railroads might not be saving a lot of money.

From the way Kennedy phrased his message Monday it would appear that men whose jobs were abolished—or most of them—would be shifted to other jobs or retrained for others. The railroads would have to keep paying them for some time. So there wouldn't be big savings in a hurry.

Kennedy said, citing the opinions of the presidential commission and board: "No one would be thrown out on the street; and, while the railroads gradually modernized their operations, there would be little, if any, loss to individual employees."

It could be concluded from this suggestion that the ICC, right from the start, would not have a completely free hand in eliminating jobs.

At the same time an examination of Kennedy's message pretty clearly indicates the unions would have to accept the ICC's ruling since that commission could get a court injunction to prevent a strike.

END OF PERIOD

At least the unions would have to accept the rulings for the two-year period after the ICC made them. In this sense the ICC rulings would be compulsory arbitration. What would happen after the ICC's two years of jurisdiction ended?

The unions and railroads would have to negotiate agreements. Supposedly, they'd have to be negotiating settlements all through the two years of ICC authority.

Then there's this: Suppose thousands of jobs had been eliminated by the ICC in that two-year time and men, if not fired, were moved into other jobs. At the end of the two years the unions wouldn't have much ground for striking against jobs eliminations that had been in effect two years.

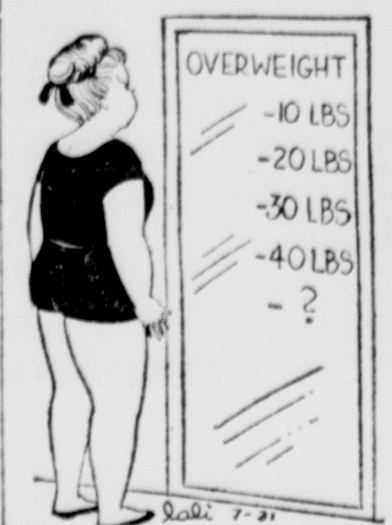

All in all, this proposal would at least delay fireworks for two years.

The spokesman said the two Communist-built planes penetrated Israeli air space over the Nitzana area.

A Lovelier You

FACE THE FAT. A recent survey shows that 25,000,000 Americans are overweight. Why? Too much food, that's why. Studies also show that many

overweight people have tried to reduce and failed. You know it! Dieting is our most popular topic of conversation.

Let's face the fat with facts. Why do we overeat? Why can't we cut down for long?

Nutritionists believe that eating patterns developed in childhood are part of the picture. If you were overfed as a child, your appetite may not take "no" for an answer now.

In the opinion of psychologists, some overeating is a form of compensation for worry, frustration or boredom. Food, in such cases, becomes a kind of tranquilizer.

All experts are agreed that, if a woman would pinpoint the underlying reason for her compulsion to overeat, she would take a giant step toward overcoming it. The next move is an approved diet, not a get-thin-quick job. Other than trimming, the main purpose of a diet is to re-educate the appetite so that it comes to enjoy less food. The project requires the kind of food and time that no faddy regimen can supply. In fact the fad diet accounts for the majority of reducing failures.

Procrastination—"I'll diet tomorrow"—is of course the front-line enemy of weight control. Only begin today and you will lose 10 pounds in a month, if you follow any one of the LOVELIER YOU diets. Meantime you learn the secret of staying slim, healthy and good looking!

Reduce without starving! Send for my purse-sized booklet, "DIET... AND LIKE IT," which includes: Shortcuts to dieting; a calorie calculator; simplified menu planning; your model weight. FDR JR. ASKS SUPPORT FOR RIGHTS BILL

WASHINGTON (AP)—Undersecretary of Commerce Franklin D. Roosevelt Jr. testified Tuesday he thinks that "by and large our businessmen, North and South, will welcome" legislation to ban racial segregation in places of public accommodation.

He presented data compiled by the Commerce Department to show what he termed the "adverse effect of racial discrimination in public accommodations on interstate commerce."

But aside from the business effects, he told the Senate Commerce Committee, the legislation is necessary because "discriminatory practices are inconsistent with our Democratic ideals."

KEY TO PROGRAM

The bill, applying to hotels, motels, restaurants, stores and other privately owned establishments serving the public and having a

substantial effect on interstate commerce, is a key part of President Kennedy's civil rights programs.

At the outset of today's hearing, Sen. Norris Cotton, R-N.H., raised the question of how the Commerce Committee is going to handle both the public accommodations bill and the measure submitted by Kennedy Monday to avoid a rail shutdown in the dispute over work rules.

"Are we going to recess the hearings on civil rights to devote full time to the railroad bill or are we going to try to carry one on each shoulder?" asked Cotton, top GOP member of the committee.

DECISION LATER

An executive session was set up for later in the day to make that decision.

Roosevelt, in his testimony, said denial of equal treatment to Negroes and other minority groups in places of public accommodation is most critical in the South but occurs in all sections of the nation "and is one of the most galling facts of life in the United States today."

In calling federal legislation indispensable, he said state and local

actions are insufficient and voluntary action by businessmen to desegregate their establishments "has proved to be difficult and sporadic to eliminate discrimination in the near future."

Burke Marshall, assistant attorney general in charge of the anti-trust division, also was on the morning's witness list by Atty. Gen. Robert F. Kennedy sent word he was needed in conferences on the Cambridge, Md., racial crisis. The committee agreed to excuse him.

PHILADELPHIA (AP)—Harbor police dragged the Delaware River Tuesday searching for the body of Robert Whitehead, 63, a steward at the Quaker City Yacht Club.

KENNEDY ASKS SKILL SYSTEM

WASHINGTON (AP)—President Kennedy urged Congress Tuesday to gradually scrap immigration quotas which put a ceiling on the number of people who may enter the United States annually from particular countries.

To replace country-by-country quotas, Kennedy recommended immigrants be admitted on a basis that would give first priority to those with needed skills, second those related to individuals already living in the United States and third, to those who apply first for immigration visas.

In identical letters to Vice President Lyndon B. Johnson and House Speaker John McCormack, D-Mass., Kennedy said that immigration quotas allotted by country are "without basis in either logic or reason."

The President said that the quotas are unjust because they are "heavily weighted in favor of immigration from Northern Europe," while putting strict limits on immigration from Southern and

"The Place to Go for the Brands You Know"

COUNTY FAIRS, NOT SCHOOLS ON PRICE LIST

HARRISBURG (AP)—County fairs, and not "the little red school house" will be the August cover theme of state liquor price lists, it was learned Tuesday.

The disagreement between the Scranton administration and the Pennsylvania Liquor Control Board was settled finally with the board getting its way—but not without an assist from the Pennsylvania Temperance League.

The controversy erupted several days ago when Gov. Scranton's office issued a memorandum to the liquor board remarking that a "little red school house" would make a better cover design for the price lists than a county fair, CALLED "OUTRAGEOUS"

The premise of the administration's suggestion was that, "since Pennsylvania has no more important problem than education, a case can be made that here is another place to tell part of the education story."

The liquor board did not agree, but it reluctantly adopted the "little red school house" theme and scrapped its county fair idea. That's where the Pennsylvania Temperance League stepped in, branding as "outrageous" the equating of education with alcoholic beverages.

JOLTED GOVERNOR

The league's public statement jolted the governor's office into issuing a new memorandum last Friday reviewing its position and concluding:

"If in the judgement of the board the resultant publicity from the plan for such a cover indicates that the use of the cover would violate the law prohibiting the board from promoting the use of alcoholic beverage in anyway, then the board would be perfectly within its rights in deciding not to use the cover."

The liquor board took the hint, quietly shelved the "little red

Today In Harrisburg

HARRISBURG (AP)—A spokesman for Gov. Scranton says it will be at least a day or two before a successor is named for James H. Crowley, who resigned on Monday as chairman of the Pennsylvania Athletic Commission.

Two of the names most frequently mentioned for the job are Chic Feldman, sports editor of the Scranton Tribune, and Billy Soose, former middleweight boxing champion from Lake Wales, Pa.

HARRISBURG (AP)—The House Education Committee approved Tuesday a plan to boost the value of 30 competitive state college scholarships to \$250 each. That would place them on a par with 100 statewide scholarships set up by action of the 1961 legislature.

The 30 had remained at \$200 per school year.

HARRISBURG (AP)—The Senate passed and sent to the House Tuesday legislation allowing county prisoners serving time for minor infractions to hold outside jobs during the day.

The vote was 49-1 with Sen. Daniel A. Bailey, R-Centre, casting the only negative vote. Under the bill, prisoners in county jails would be permitted to work outside during daylight hours, then return at night, on agreement that the cost of imprisonment be deducted from their earnings.

HARRISBURG (AP)—A former state employee petitioned commonwealth court Tuesday in an attempt to force the Scranton administration to reinstate him in his job.

The complaint was brought by Sebastian R. Hafer of Camp Hill, who had been employed as a management analyst for the office of administration. He was on the payroll, however, of the Liquor Control Board.

John Ingram, secretary of administration; Martin H. Brackbill, budget secretary, and A. D. Cohn, Cohn, Dean Fisher and Daniel B. Swaney, board members, were named defendants in Hafer's suit. In his petition, Hafer said the Civil Service Commission had ordered his reinstatement. The order was ignored, however, because the Justice Department had ruled the commission had no power to make such an order, the petition said.

red school house" and for the second time adopted the county fair theme.

PA. BEAUTY MEETS BRASS AT CAPITOL

HARRISBURG (AP)—Miss Pennsylvania, 19-year-old Donna Loar of Lancaster, visited the Capitol Tuesday and received the good wishes of Gov. Scranton and the state legislature.

Miss Loar, flashing a warm smile, chatted with the governor for 10 minutes in his inner office.

When Miss Loar and her official party were escorted into the governor's office they found Scranton on the telephone.

He quickly finished his conversation and greeted the visitors as cameras clicked away.

The best picture came when Scranton used a paper clip to fasten Miss Loar's "Miss Pennsylvania" ribbon to a shoulder of her blue chemise dress.

While they posed together in front of the office fireplace they exchanged jovial banter about Miss Loar's accomplishment last month in the Miss Pennsylvania contest and her forthcoming trip to the Miss America pageant in Atlantic City.

Later she was introduced to both the House and Senate and their respective members applauded her roundly.

Letter To The Editor

Dear Sir,
Enclosed you will find my check for \$1.20 Please send me three (3) of the July 10 and nine (9) of the July 12 issues of your paper. This will give each boy a copy and supply references for future use in the Scouting units in our town.

I personally wish to thank you for the coverage you provided. As you probably know The Gettysburg Times is not widely circulated in the Spring Grove area, our own papers weren't sure if they wanted to even use the story let alone the pictures.

Because of one boy becoming ill on the hike, we were delayed about four hours about four miles out of Pardee Field. This situation got us home at 9 p.m. instead of about 6 p.m., as we had planned. Your circulation and coverage in the area up there let enough people know what we were doing so that we could get help and a boost to some very tired boys. Actually, after we were once again on our way, the encouraging remarks and comments of people who had read the article in your paper is what kept the boys going. The kind and friendly reception we received through the publicity in the paper has decided the boys in planning another such hike so that all of the Scouts can make it.

Our many thanks,

Dear Sir:
One of the highlights of the Centennial, in the opinion of me and my family, was the superb medley of Civil War music played by the Gettysburg High School band the evening of July 3. Up till that time I had felt that the lack of appropriate music (with the exception of the "Battle Hymn of the Republic" which was played often in the parade) seriously detracted from the mood-setting which I thought the Centennial should accomplish. We thanked some of the band members at the time but I wish you would print this great big THANK YOU to the whole band. They did a beautiful job and added a most important part to the centennial.

Sincerely,
SALLY MAC LEAN

Glenn Miller's Band In Hershey

HERSHEY, Pa. — The Glenn Miller Orchestra, directed by Ray McKinley, will provide music for dancing at Hershey Park's Starlight Ballroom Saturday, featuring the late bandleader's famed, authentic arrangements.

Miller and McKinley worked together more than 25 years ago when both were members of such great bands as Ben Pollack, Smith Ballew, and the Dorsey brothers. Sparked by Glenn's ingenious writing and Ray's inspiring drums, the Dorsey band became one of the outstanding big dance bands of all time. Miller's services were in constant demand and, in 1937, he struck out on his own. In 1939 the band really caught on and became the number one band in the nation. The liquid reeds with the ooh-wah brass, romantic ballads, jumping swing numbers and imaginative novelties combined to win and hold millions of fans the world over.

Miller lost his life in World War II but in 1954 a great Miller music revival took shape, sparked by a movie of his career. Chosen by the hands own members to lead them was Ray McKinley, a close friend of Glenn once a fellow sideman and later a rival bandleader.

The plane was piloted by George Barkasi of Gilbertville, a student at Pennsylvania State University. Accompanying him to Bloomsburg was Emil Konkus of Minersville. Konkus was a disc jockey on radio station WHLM, Bloomsburg and was known as Ken Ross.

The plane crashed into a hill on the farm of Robert Blessinger, outside of Boyertown. The two men, both 20, were piled loose from the cockpit and rushed to Pottstown Hospital, where they died.

Neither Konkus nor Barkasi had regained consciousness.

Barkasi, president of the Nittany Flying Club at Penn State, was returning from Pottstown where he'd gone to retuel the plane. He had left Konkus at a private field here and was returning to Bloomsburg where he was scheduled to broadcast Tuesday night. Konkus had been working at the Bloomsburg station since February.

Immediate Action in York, a group formed following a disturbance Friday night. During the melee three Negroes were reported to have been bitten by police dogs.

The Story Behind The Book

CARAVANS

By James A. Michener
"Caravans," James A. Michener's first novel since "Hawaii," is the August Selection of the Book-of-the-Month Club.

Mr. Michener has long been fascinated by the adventures of Americans far from home — in the Pacific, in Korea, in Japan. Now he tells a story of the search for a footloose Bryn Mawr girl who has disappeared in the wilds of Afghanistan.

Her name is Ellen Jasper. The State Department sends a young attaché, Mark Miller, in search of her. Mark knows Afghanistan well and calls it "one of the world's great cauldrons." It is a forbidding land, mountainous, parched, bleak, torn by feuds and wars. Rarely visited by travelers even in the 20th Century, it is separated from the rest of the world by arid stretches of the Middle East, by the Soviet Union and by the Indian subcontinent.

STONED TO DEATH
The people are Moslems, but say that they are of the tribe of the Beni-Israel — descendants, that is, of the Hebrews who were carried away by Nebuchadnezzar. The Afghan way of life, as Mr. Michener's novel describes it, is not unlike that of Old Testament tribes. The adulterous Afghan woman, for example, is punished by being dragged forth, tied to a stake in a public place, and stoned screaming to death.

Ellen Jasper has come to Afghanistan as the wife of a handsome, cosmopolitan Afghan engineer she met while he was studying the United States. But the majority of her husband's people, she soon learns, are quite unlike him. Many are nomads—simple herdsmen and wanderers who follow their flocks over a thousand-mile range in search of pasture and watering places. These primitive Afghans indeed resemble the ancient tribesmen of Israel, who dwell in skin tents and thought of little else but their flocks and the One God.

"TOO RESTLESS"
Ellen is a pretty girl who was too restless to stay with her family in Dorset, Pennsylvania. It is not wholly surprising that she will not stay at home with her husband. She is attracted by the romance and freedom of nomadic life, and she wanders off with a party of the ragged herdsmen.

FLASH FLOOD IN BEAVER CO.

MIDLAND, Pa. (AP)—Workmen were cleaning up in this Beaver County community Tuesday following a flash flood that dumped about six feet of water in basements of downtown buildings.

Fire Chief Vincent D'Itry said damages would total at least \$250,000. No injuries were reported.

"This has been one helluva flood," Police Chief E. J. Steff said Monday following the thunderstorm and flood. "I've never seen anything like it in this town, and I've been chief for a long, long time."

Mayor Ely G. Corak declared a state of emergency until the cleanup was finished.

Steff said a large landslide blocked Route 68 leading toward nearby East Liverpool, Ohio. High tension wires and tree branches were knocked down and scattered throughout the town.

\$100 Million Shift In Funds

HARRISBURG (AP)—The Senate has approved an administration proposal shifting \$100 million in Highway and Bridge Authority borrowing for non-interstate highways.

The proposal passed the Senate, 38-6, Tuesday amid a flurry of debate and went to the governor for his signature.

Minority Leader Charles R. Weiner, Philadelphia, charged that the shift in loans would keep some interstate projects languishing, while the state presses for construction of local roads.

"There isn't going to be much road building in Democratic counties this year," he added. "This money is going for roads to be built in Republican counties."

Parochial School Bus Issue May Wreck Legislature's Plan To Quit By July 31

HARRISBURG (AP)—The parochial school bus issue, a time bomb threatening to explode plans to windup the 1963 legislature next week, was before the House today for a showdown.

Attempts to decide the issue Tuesday night broke down when the two sides failed to reach agreement on how to handle it.

The Republican majority finally adjourned the futile night session of the House after waiting impatiently for Democrats to return from an extended private caucus on the issue.

CAUCUS REPORT

Majority Leader Albert W. Johnson said his caucus was unable to take a position on the proposal—which has Gov. Scranton's backing—because of uncertainty over Democratic plans.

Minority Leader Anthony J. Petrosky finally advised newsmen that his caucus would support a suggested compromise which would allow public school districts to provide transportation for non-public school students along established public school bus routes.

Johnson said he would place the matter before the GOP today.

ONE BILL IN 12 HOURS

The majority floor leader conceded that the issue, and its unplanned disruption of the session, period the scheduled July 31 date for final adjournment of the current legislature.

The House was in session more than 12 hours, and managed to pass only one bill.

That measure would leave to

action.

Community Colleges, anti-strike—The chairmen of two House committees handling administration-backed bills to set up a community college system in the state and to provide machinery for delaying strikes against public utilities to allow time for arbitration said they hadn't had time to take up the measures.

The chairmen are Reps. Blaine C. Hocker, R-Dauphin, of Appropriations, which has the community college bill, and James S. Bowman, R-Dauphin, of labor relations, which has the public utilities strike measure.

COLLEGE SALARIES

Salaries—The Senate passed a bill providing a \$1.1 million increase in minimum salaries for faculty members at the 14 state owned colleges.

The measure boosts minimums for instructors from \$4,500 to \$5,400; assistant professors, from \$5,000 to \$6,300; associate professors from \$5,500 to \$7,650, and full professors from \$6,000 to \$8,000. Also provided are annual pay hikes ranging from \$360 for instructors to \$540 for professors.

Instructors and assistants would get four automatic boosts and associates and full professors five.

Confusion at the end of the House session climaxed a day of strife and frayed tempers.

Many things contributed to the ill feeling.

Labor officials, for one thing, descended on the Capitol to buttonhole legislators to express opposition to the administration's unemployment compensation program.

WOULD RAISE TAXES

The program would raise maximum weekly benefits for idled workers by \$5 but would remove from eligibility the so-called fringe area of the labor force, in-

NUCLEAR PACT FACES LIVELY SENATE SHOW

By LEWIS GULICK

WASHINGTON (AP)—An uncertain reception in the Senate awaits a nuclear test-ban treaty which U.S. sources say is all but completed in Moscow.

Secretary of State Dean Rusk and disarmament agency director William C. Foster sought to blaze a path for the treaty Tuesday by showing a draft of the proposed agreement to the Senate Foreign Relations Committee.

Afterward committee Chairman J. W. Fulbright, D-Ark., said it was possible the Senate would approve it this session but declined to go so far as to predict that would happen.

LIVELY DEBATE

Republican Leader Everett M. Dirksen of Illinois would predict

cluding the jobless who return for a second round of benefits without finding intervening employment.

It also would raise taxes paid by employers to pay for the benefits.

The measure, buffeted from both the labor and management sides, was reported in difficulty and in danger of defeat.

SCHOOL LOBBYISTS TOO

School lobbyists also were among the milling crowds to express their displeasure with the scaled-down salary plan for teachers approved by the administration.

The Philadelphia school tax issue further grated nerves.

And the school bus matter capped them all.

UP TO DISTRICTS

The agreement on the compromise to leave it up to the school districts whether to pick up parochial and other non-public school children on their bus routes, was worked out by Reps. Harry Kramer, D-Allegheny, and Matthew Ryan, R-Delaware, at the suggestion of Johnson.

But Democratic backers of state aid for transporting the non-public school students at first balked at it.

They threatened to fight for complete state subsidization of the transportation. The cost has been estimated at up to \$4 million annually.

See New Mark On Steel Shipments

NEW YORK (AP)—Despite slumping production, mill shipments of steel in 1963, probably will top any year since 1957, the Iron Age said today.

The metalworking weekly said July-December shipments need only to exceed 30 million tons to match the 1960 mark of 71 million tons, since 41 million tons traveled to users in the January-June period. Shipments are likely to go 2 million tons beyond that level, the magazine said. In 1957, a banner year, the mills shipped 89 million tons of steel.

"Optimism is based on the general strength of the economy and a continuing high level of steel consumption," the Iron Age said.

The magazine said the outlook for the auto industry, steel's second best customer behind construction, was particularly encouraging.

JESSELTON, North Borneo (AP)—Police have arrested 21 Indonesians for alleged violations of this British colony's public security regulations. The government said more arrests could be expected.

only that the treaty would set off lively debate. He said he would not know until he had seen all of the provisions whether he would oppose it or not.

Informed sources said American, British, and Soviet negotiators had virtually completed their work on the test-ban pact and were preparing to issue a final communiqué soon, perhaps later today.

Signing of the treaty would send it to the Senate, which must ratify it by a two-thirds vote before it becomes binding upon the United States.

After the briefing by Rusk and Foster, Fulbright made these points to newsmen:

1. No committee member opposed the limited test ban during the closed session, but no member had committed himself to support the treaty, nor had Rusk requested tris.

2. The test ban "is not yet final." U.S. negotiator W. Averell Harriman has yet to initial it—certifying what the negotiators agreed to—and then it must be brought to Washington for governmental consideration before formal signing.

3. After Harriman initials the agreement, the committee expects to have an opportunity to study it for some days before the signing.

4. Then — if the consultations with the senators and among interested Washington federal agencies favor the draft — arrangements will be completed for a formal signing.

CAMBRIDGE IS RELIEVED BY TUESDAY PACT

By TOM STUCKEY
CAMBRIDGE, Md. (AP)—Many residents of Cambridge feel the tentative agreement between Negro and white leaders to end Cambridge's explosive racial struggle is just the beginning of a possible solution.

The mood of this Chesapeake Bay town torn by violence is one of relief that the pact has removed the immediate threat of more demonstrations.

The agreement was signed Tuesday in the Washington office of Atty. Gen. Robert F. Kennedy after nearly 10 hours of negotiations between Negro leaders and Maryland and Cambridge officials. The pact says it is "considered as imposing a moral obligation. . . to abide by and fully support the spirit and intention of this agreement." It is not legally binding.

MAJOR STEP

"Not everything has been accomplished," Kennedy said. "It is a major step forward. It is an effort to get Cambridge back together. It is not a victory or defeat for anybody."

Negroes have agreed to halt demonstrations indefinitely because "further progress can best be obtained in an atmosphere of calm and serenity."

The agreement points out that racial progress in this city of 12,600 has been made and there are prospects for more tangible accomplishments.

SCHOOLS INCLUDED

It lists appointment of a biracial committee, hiring of a Negro interviewer at the State Department of Employment Security's Cambridge office, complete school desegregation by September and a low-rent public housing project. Also listed was the equal accommodations amendment to the town charter, approved by the Town Council July 1. If the amendment is not petitioned to referendum, it will go into effect Aug. 20, opening restaurants, motels

Health

Exercise is vital to health. The elderly are no exception. They may tend toward inaction. And inactivity is destructive. Muscles waste and weaken. Functional capacity decreases. Exercise energizes the body. And delays the aging process. Exercise in a proper degree is prescribed for heart patients. And even bed-ridden patients. Learn to exercise themselves.

LISTON TOUGH, DEMPSEY SAYS

TORONTO (AP)—Take Jack Dempsey in his prime and match him with Sonny Liston and how would it come out?

Take the word of an expert, there's just no telling. "It might have gone either way," said Dempsey. "This kind of a fighter is tough to fight. He's liable to lick anybody."

"He's big and strong," the old heavyweight champion said of the latest titleholder. "And with today's crop of fighters, it may be some time before you'll be able to properly size him up."

FLOYD SHOULD QUIT

Dempsey, 68, in Canada to look over some mining property in Quebec, said he had an invitation to watch the Sonny Liston-Floyd Patterson rematch on closed circuit television Monday night, but passed it up.

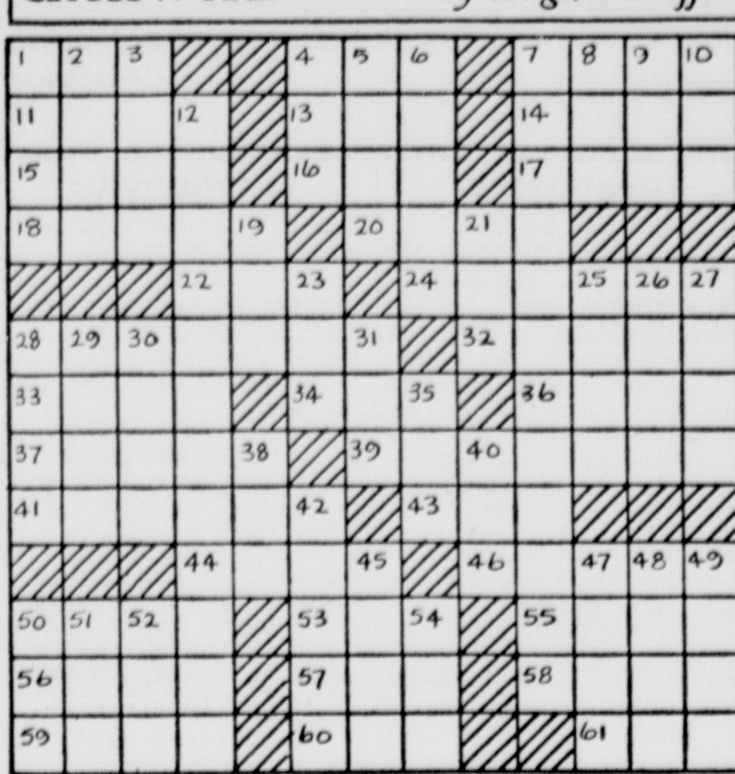

Dempsey, who lost his title to Gene Tunney, then lost again in a rematch, said he quit the ring because "I didn't want to get hurt."

Patterson, twice the victim of first-round knockouts, should do the same thing, he said.

The first 300 game approved by the American Bowling Congress was rolled by A. C. Jellison of St. Louis on December 15, 1908.

and hotels to Negroes. Town officials said they would support the amendment should it be petitioned to the ballot.

Top Tennis Play Fails To Draw

NEW YORK (AP)—Indoor tennis drew only a sparse crowd of 4,612 to Madison Square Garden in May when Rod Laver upset pro champion Ken Roswall, 6-0, 6-3. When the pro netman were here in January they drew 10,100 despite a newspaper strike. "It's not as good as it was five or six years ago," says Roswall, regarding the drawing success of the tennis tour. "But we think we will come out all right."

If a 40-ton freight car and a 40-ton truck trailer were given identical 60 m.p.h. shoves on level track and adjoining highway, the freight car would coast five times as far as the truck because of the lower friction of steel wheels on steel rails.

Producers Study New Rental Tax

NEW YORK (AP)— Broadway producers are pondering the effects of New York City's new occupation tax on theater rentals.

The specified levy is 5 per cent on annual rentals above \$2,500. Producers argue that part of payments made to theater owners—a percentage of boxoffice gross—are not rental but cover certain operating and maintenance costs.

The city previously had a direct 5 per cent tax on tickets, but canceled that charge two years ago because of Broadway's plea for economic relief.
